One-year Apples on three-year-old roots, July 13, 1915
Layritz Nurseries, Victoria, B. C.

To Our Friends and Customers

In presenting our new price list, which cancels all previous quotations, we take occasion to greet our friends and customers, thanking them for past patronage and assuring them, as well as all new customers, that no effort will be spared to secure their satisfaction by executing all orders in the best possible manner.

WHY YOU SHOULD PLANT TREES.—Although these are quiet times with the terrible war raging in Europe, we all look forward that soon the bells of peace will ring in a new area of development in our great Province. We are looking forward not to an increased land boom, but to an actual development of the Land by men—having profited by the experience of the Pioneers and with the additional guidance of our Government horticultural advisers will have no difficulties to bring forth from our productive lands more, and even finer fruits yet than our country is famous for already.

Nor do we want to underestimate the increased value and more so the comfort of contentment easily to be created by the judicious use of Ornamental Trees and Shrubs, and the variety of these is almost unlimited under our favourable climate for the use on the grounds surrounding our homesteads. Nothing will appeal more—on the costliest mansion alike to the humblest dwelling—than a well-kept garden, and a comparatively small outlay for well-grown trees and shrubs will form in a short time a most valuable asset to our properties.

OUR STOCK THE LARGEST IN THE PROVINCE embraces the most varied and most careful selected assortments of hardy Nursery stock in Canada. Many of the leading varieties of both Fruit and Ornamental trees can be supplied in thousand lots of the different sizes, as you can convince yourself if you will only please come to the Nurseries.

All stock sent out is of **Strictly First-Class** quality and the **prices are as moderate** as can be quoted for reliable, well developed stock.

SPECIAL OFFER—As a special inducement to our customers we will prepay freight, on all orders above \$10, if cash in full, is remitted, prior to shipment of goods.

REMITTANCES should be made by draft on Victoria, or by express money order or postal money order. On personal outside cheques **exchange** must be added.

FIVE TREES OR PLANTS OF ONE GRADE AND ONE VARIETY at 10 rate. Fifty at 100 rate. Less than five trees of one sort and grade are supplied at price quoted for single trees; less than 50 at 10 rate.

Claims for shortage or errors must be made within six days after receipt of goods, otherwise they will receive no attention.

WE GUARANTEE STOCK TRUE TO NAME and use utmost care to avoid mistakes, but should any stock prove untrue to label, it is mutually understood and agreed between purchaser and ourselves that we shall in no case be liable for an amount greater than the original cost of the stock that proves untrue to label.

In ordering please give explicit directions as to route, manner of shipment, etc., as it is distinctly understood that our responsibility ceases when the goods are delivered to the transportation company in good order.

To insure the complete filling of orders it is most important that arrangements, for the sorts and varieties wanted, should be made early in the season, especially for Spring shipment. The careful planter makes his plans in good time and has the varieties wanted reserved by the nurseryman till ready for planting. Moreover, orders are filled strictly in rotation in which they come to hand, hence we cannot, except for extraordinary reasons, delay orders received first, for those coming late in the season and requiring attention at once.

THE NURSERIES ARE OPEN DAILY except Sundays, to all who are interested in horticulture, and inspection is cordially invited.

The Layritz Nurseries are situated three miles from Victoria on Junction of Carey Road and Wilkinson Road and can best be reached by Saanich B. C. E. Ry. from Wilkinson Station, or by Sidney Ry. from Royal Oak Station, either station about ten minutes walk from Nursery.

We thank our many customers for their past patronage and hope to merit a continuance of their favors in the future.

Cordially yours,

R. LAYRITZ, Proprietor

January 29, 1916.

Fruit Department

Our fruit trees are all strictly first class "budded stock," which means in case of yearlings, one year growth on three years old roots.

Special prices for large lots on application.

Ornamental Department

We have now many fine large specimens of both Shade Trees and Evergreens, repeatedly transplanted and fit to give satisfaction and immediate effect in landscape planting. Prices for these will be given on application, but a visit to the Nurseries of parties interested and personal selection is most desirable.

Gomer Waterer, blush, fine.

Kate Waterer, light red.

Madame Maison, white, yellow centre.

Michael Waterer, bright red.

Monsieur Thiers, brilliant rose.

Lady Clermont, rosy scarlet.

Prince Camille de Rohan, rosy, crimson centre.

Mrs. R. S. Holford, salmon crimson.

Price each \$1.50, per doz. \$12.50.

Extra strong plants, \$2 and \$3 each.

EVERGREEN TREES AND SHRUBS

Our Evergreens, by repeated transplantings, have all formed a close ball of fibrous roots, and when shipped the balls are tightly wrapped up in canvas. For best results the trees should be planted without removing this canvas, only cut open the string which is holding it together after the trees have been set firmly in position and the new roots soon work their way through the decaying canvas.

Roses

Our stock of this most popular of all ornamental plants embraces all the leading varieties of the day, including the most valuable novelties of both American and European origin. At the same time we have discarded anything which has been surpassed by improved sorts, or did not come up to the standard in regard to robust, healthy habit and hardiness, and freedom of bloom. All plants sent out are grown in the open field, and with ordinary care they will give a full crop of flowers the first season after planting. Fall planting is most satisfactory, particularly on the coast where Roses often begin to grow again shortly after New Year.

To simplify matters, our Roses are now listed in alphabetical order irrespective of the class, but there has been added behind the name of every rose the initials of the class to which they belong. Thus T. stands for Teas and Ever-blooming Roses; H. T. for Hybrid Teas; H. P. for Hybrid Perpetuals; Pol. for Polyanthas; and Wich. for Wichuriana Roses.

NEWEST ROSES OF 1914

Prices: Strong Plants, 75c Each; \$6.00 per Ten

Coronation H.P.—This beautiful Rose is a vigorous upright grower, and produces lovely flowers, shading from flesh to bright shrimp pink, of an immense size, great substance and an elegantly finished form. This is undoubtedly much the largest Rose yet raised, and as an exhibition Rose is unrivalled. Wherever shown last spring it received first prizes and Gold Medals at all the big exhibitions in the Old Country.

Climbing Sunburst, H.T.—The most valuable acquisition in Climbing Roses for many years. A very strong grower; clean, healthy leather like foliage; flower large, full, pointed and of beautiful form when open; color a rich orange yellow with deeper centre, very free flowering all through the Summer. This is beyond question the finest Climbing Rose of all the yellows.

Mme. Edward Herriot. Pernetiana.—Coral red shaded with yellow and bright rosy scarlet passing to prawn red, bud coral red shaded with yellow on the base; flower of medium size, semi-double, green bronzed foliage. Growth vigorous, of spreading branching habit with many long thorns. Probably the most advertised of all the new Roses. Often called the "Daily Mail Rose."

Irish Fire Flame. H.T. Single.—As the name expresses this is truly a gorgeous colored Rose. The intense color gradations spontaneously convey the idea of a Flame. In the spiral bud state it is deep maddery orange, splashed with fiery crimson, which becomes, as the flower opens, rich, satiny ochrey, old gold, delicately sheened and veinated—as if sunset tinged—with pure crimson and pure lemon zone. This wonderful combination of colors, together with the exquisite finish of the large bloom instantly pronounce its loveliness. Even the wood of a shiny purple color and festooned with varnished, deep bronzy green foliage, is most attractive. A most fascinating Rose that should be in every garden.

Mrs. F. W. Vanderbilt, H.T.—Deep orange red, shaded bronze apricot red, quite distinct from any other rose in cultivation, marvellously attractive variety, and undoubtedly the finest Hybrid Tea existing in this novel scheme of colouring. The flower is absolutely perfect in shape and form with petals of wonderful depth and substance, blooming freely throughout the entire season. It is a fine, strong grower, and considered the finest and most useful Rose of the year. Awarded Gold Medal of the National Rose Society, last Spring.

Old Gold, H.T.—This is said to be the most beautiful, decorative and bedding rose in existence, and the most glorious colour that has ever been seen in any rose; the tint is a vivid reddish orange with rich coppery red and coppery apricot shadings. A gem for cut flower work and all kinds of decorations—the blooms lasting a long time in perfect condition. Its dark coppery foliage forms a delightful contrast; it is sweetly scented; continuous flowering, a good grower and absolutely mildew proof. Sure to become a great favorite when properly known.

Mrs. Andrew Carnegie, H.T.—The Sensational Rose of the Season. A sweetly scented Druschki. Over 20 lengthy press opinions on its good qualities proclaim this to be undoubtedly the finest white Rose in cultivation. The very large, beautifully formed flowers are truly of an aristocratic appearance and will be all the more appreciated as the long lasting flowers are delicately fragrant.

NEW AND RARE ROSES OF RECENT INTRODUCTION

Strong Plants, 50c Each; \$4.00 per 10; \$30.00 per 100

Alexander Hill Gray, T.—Deep lemon yellow and noble form. Gold Medal, N.R.S.

American Pillar-Climber.—The single, large flowers are of a lovely shade of pink, with a clear white centre and bright yellow stamens, and are produced in huge clusters.

Aviator Bleriot—Climber, yellow; a very pretty little Rose coming out in big clusters; strong grower.

British Queen, H.T.—Described as one of the finest white rose in existence, surpassing in purity and elegance of form "Frau Karl Druschki", very free and abundant bloomer, opening freely in all weathers.

Carine—A most fascinating Rose of a combination of colors, changing from orange carmine to creamy fawn and coppery salmon; very fragrant.

Chateau de Clos Vougeot—Velvety scarlet, shaded fiery red changing to dark velvety crimson.

Climbing Papa Gontier, T.—A most valuable addition to the red Climbing Roses.

Climbing White M. Cochet, T.—The best Climbing rose of this color yet.

Countess of Shaftesbury, H.T.—Bright, silvery carmine; a perfect rose of exquisite refinement and finish of color and form. Gold Medal, N.R.S.

Entente Cordiale, H.T.—Creamy white, end of petals tinted carmine. A fine, large and globular flower.

George Dickson, H.T.—Very strong vigorous upright growth, flowers of the largest size, perfect in shape and unique in colour, which is velvety black crimson, the back of the petals being heavily veined with pure crimson maroon. This rose is destined to take a leading position as an exhibition rose, lasting an extraordinary time in fresh condition, either cut or on the plant, delightfully scented.

General-Superior Arnold Janssen, H.T.—Deep glowing carmine; vigorous grower, compact and very freeflowering. In every respect a very valuable rose.

Heinrich Munich, H.P.—A very large but well shaped flower standing solitary on stout stems of a lovely delicate pink color. A pink "Druschky," and considered the best of last year's novelties.

His Majesty, H.T.—Deep vermillion, crimson towards the edges, full and large, sweetly perfumed, strong grower. Gold Medal N. R. S.

Jonkheer J. L. Mock, H.T.—This is a grand Rose of immense size, noble form, and of a clear imperial pink color. Being very free flowering, too, and a healthy, strong grower, it is bound to become very popular when properly known.

- Joseph Hill, H.T.**—Salmon pink, with a deep orange shade; extra fine.
- Juliet.**—This is a very distinct and attractive novelty. Outside of petals old gold, interior rich rosy red changing to deep rose as the flower expands; deliciously fragrant.
- King George V. H.T.**—A superbly shaped, very large Rose of rich blackish crimson color with a deep velvety finish. Very vigorous grower, with resistant leathery foliage. Gold Medal.
- Lady Hillington, T.**—A long, slender pointed bud of brilliant deep apricot yellow; very free flowering and a good grower.
- Lyon Rose, H.T.**—Shrimp pink, centre coral red, shaded with chrome yellow; superb. This Rose has been the sensation since it has been introduced, and truly everybody must be charmed by the wonderful color combination of this grand Rose.
- Madame Jenny Guillemont, H.T.**—Buds long and pointed, deep saffron yellow, opening canary with dark golden shadings; a large and very beautiful Rose.
- Madame Segond Weber, H.T.**—This grand Rose, of a rosy salmon color, deserves all the praise it has received.
- Mary, Countess of Ilchester, H.T.**—Warm crimson-carmine flowers of great size, with large smooth circular petals, upright growth, deliciously scented. A variety of much merit and distinction.
- Miss Alice de Rotschild, T.**—Rich, deep citron, free bloomer; buds long and pointed; Mar. Niel perfume.
- Mrs. Aaron Ward, H.T.**—Copper and golden yellow; flowers full and of fine form. A strong grower and alround a valuable Rose.
- Mrs. Frank Bray, H.T.**—An improvement on that justly esteemed Rose, Mme. Ravary. It is very vigorous and the well shaped flowers are of a deep rich coppery ecru, developing as the flower opens to a very delicate coppery fawn with a shade of ivory shell pink.
- Mrs. Sam Ross, H.T.**—A pale straw-coloured Hybrid Tea of immense size and great refinement. The handsome flowers are carried on stiff erect footstalks and last a very long time in good condition.
- Prince de Bulgarie, H.T.**—Silvery flesh, very delicately shaded with salmon, very attractive and desirable.
- Shower of Gold.**—Climber; this is a great addition to our Climbing Roses; in fact, it is the very best yellow of the Wichuriana Class. Deep golden or safran yellow—like W. A. Richardson. Fine, healthy foliage.

- Souv. de Catherine Guillot, T.**—Crimson with orange yellow. A most attractive new Rose.
- Souv. de Pierre Notting, T.**—(**Yellow Mamam Cochet**) Yellow and orange, very desirable Rose.
- Souv. Maria Zayas, H.T.**—This is a superb Rose for our climate; an extra strong grower, with robust, clean foliage and very free flowering. The buds are perfectly shaped, of a bright carmine color. Highly recommended.
- Sunburst, H.T.**—A vigorous, erect grower, with very few thorns and fine redish green foliage; buds long and pointed, generally carried singly on long stout stems; flower of beautiful form, large and full, orange yellow with deeper centre. This is undoubtedly the finest of all yellow Roses at present in commerce.
- Radiance, H.T.**—Salmon carmine, tinted copper yellow; sweet scented.
- Rayon d'Or, H.T.**—An incomparable Rose; color a coppery orange, streaked with bright scarlet bars, which when bloom is expanded becomes sunflower yellow. Clean healthy foliage.

PAEONY, HERBACIOUS

The following list embraces the best varieties of the different colors of this popular flower. Paeonies want strong ground and sufficient room to come to their best; transplant best in Autumn.

Strong Plants, Each 50c: per Ten, \$4.00

- Anemoniflora rubra**—Dark crimson with a centre of small, ligulated petals.
- Beaute Francaise**.—Delicate flesh pink, with purple and carmine spots. Very fine.
- Chrysanthemiflora**—Guard petals white shaded, flesh color, centre white and bright yellow, extra very early.
- Doyen d'Enghien**—Dark violet rose (royal purple).
- Edulis superba**—Very large and perfectly shaped flower, brilliant pink with violet shade, mixed with white narrow petals with a silvery reflection.
- Faust**—Pretty anemone shaped flower, guard petals soft lilac, those of the centre narrow and clear chamois.
- Festiva maxima**—Pure white, some petals in centre carmine spotted.
- General Bertrand**—Salmon color, with rose centre.

Jeanne d'Arc—Large soft pink flower, centre sulphur white, with brilliant pink, some petals carmine spotted. Fragrant, good producer and strong grower.

Louis van Houtte—Bright, violaceous red.

Modeste Guerin—Perfectly built flower, bright carmine.

Queen Victoria—Compact large flower, guard petals broad, flesh white when opening.

Rubra triumphans.—Bright purplish crimson.

Zoe Calot.—Large, very double globular shaped bloom of a tender rose color, shaded with lilac; very desirable.
